

# Paul C. Taubee

Mr. Taube was born in 1912 in Detroit, Michigan, and graduated from Grosse Pointe High School in 1930 and studied business management for 2 years at Detroit Tech. Paul has lived in Northridge since 1946 and during that time he has made a record of community involvement second to none. No one in Northridge has worked harder to assist our schools and community. If they gave the title “Mr. Northridge,” Paul would be one of the leading contenders. At 88 Paul is still serving very actively. His community involvement includes:

- Leading the effort to bring sewer and water to the area
- Working at the church coalition food pantry for 2 decades
- Serving as a precinct committeeman for the Republican party since 1958 and as Harrison Township leader many times
- Working hard to prevent the annexation of this area by Dayton thus preserving our school district
- Being a leader of the Northridge Kiwanis club for five decades, serving two terms as president, helping NHS Key Club, and helping needy Northridge families at Christmas for 3 decades
- Worshipping at Beardshear United Methodist Church for decades, including 12 years as lay leader
- Serving as chairman of numerous school levy campaigns and working on school board elections
- Mr. Taube has been recognized for these accomplishments by being inducted as honorary member of the Northridge National Honor Society and being honored as grand marshall for the Northridge community parade.

Paul lives with his wife of 68 years, Margie, just two blocks from NHS. He has two children: son Paul and wife Rose Marie who live in Indiana and daughter Barb and husband Bob Harris who live in Northridge. Barb has been working as attendance secretary at the high school for over 20 years and Bob has served for many years working the scoreboards at football and basketball games. He and Margie have 4 grandchildren and 5 great grandchildren. Mr. Taube worked – in his spare time – for General Motors for 35 years at Frigidaire. His hobbies are golf, fishing, bowling, and boating.
